

Winch Counter

This product is conceived for the winch technician. When connected to the wheelhouse computer, it can communicate information between winch operator and people who operate the boat.

Display

- ▶ Unrolled cable's length
- ▶ Cable's moving speed
- ▶ Depth (from another device)
- ▶ Messages from wheelhouse

Characteristics

- Indicate the cable's length (-99.9 to 999.9 meters)
- Indicate the cable's moving speed (-9.99 to 99.99 meters/second)
- Visual and sound indication when a message is coming
- Splash proof polycarbonate box (240 x 160 x 120 mm)
- 3 x 4 digits (18 mm) LCD screen
- 1 x 20 digits (4.75 mm) per 4 lines alphanumeric LCD screen
- Power input 85 to 264 Vac
- Internal permanent memory
- Wheelhouse program software included (Windows XP)

Who is Multi-Électronique (MTE) Inc. ?

Founded in early 80s, Multi-Électronique (MTE) Inc., as its name indicated, is an active firm in the electronic field. The firm activities are not only centralized over the repair business, but include the design and manufacture of on demand electronic equipments.

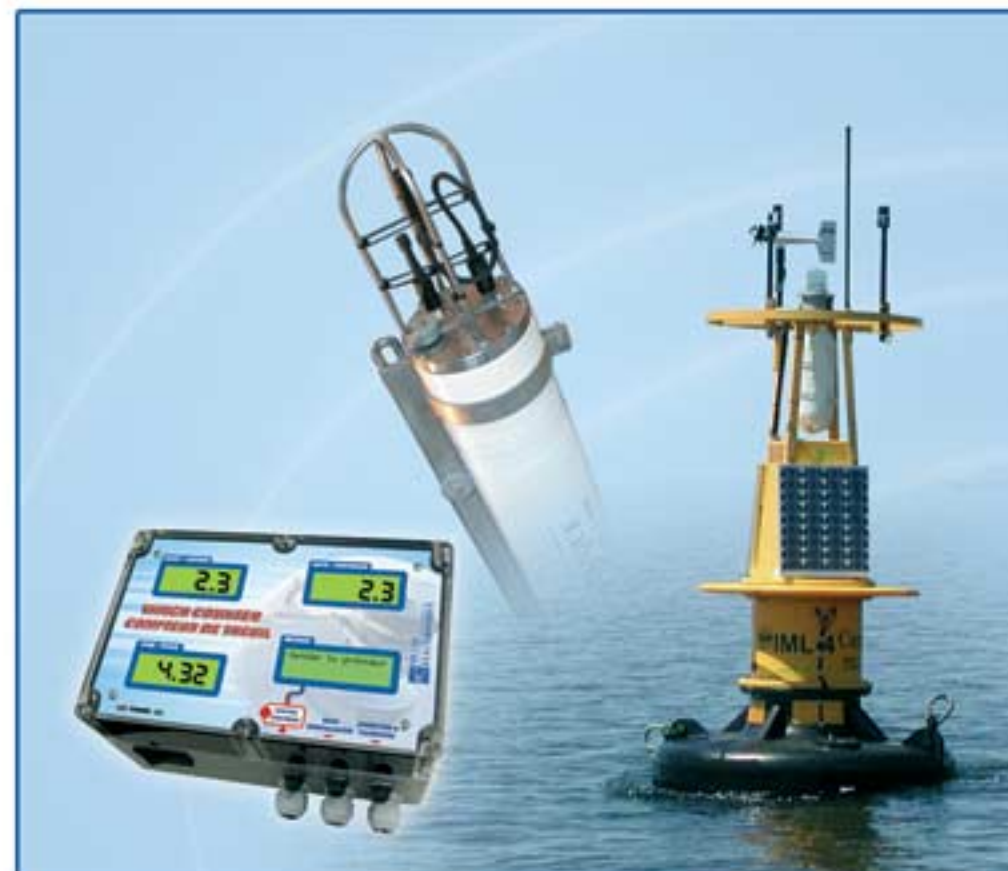

Over the years, its work gives the firm the opportunities to develop an expertise in the oceanographic equipment field.
